

AbundanceAI

Product Requirements Document — MVP & Roadmap

Gemini XPrize Entry • June 2026

1. Vision & Soul of the Product

AbundanceAI is a humanity-first platform that empowers everyday people — experts, coaches, healers, hobbyists, artisans — to share their gifts with the world and make a living from it. No technical background required. No prior business experience needed. AI does the heavy lifting. They just show up.

The Revolutionary Positioning

AbundanceAI is the first tech product that treats users as whole human beings — addressing not just the technical barriers, but the internal ones also. No one else bundles these three values into a single tech product:

1. **AI Done-For-You Toolkit** — paint-by-numbers guidance through program structuring, marketing and launching
2. **Personalized Mindset Coaching** — proactive courage and confidence support delivered by AI at every step
3. **Community Support Circles** — AI-matched peer groups of 3–5, inspired by the Grameen microcredit peer support model

Long-term company vision: A shared abundance model where customers, community leaders and contributors participate in the company's success. Our customers are not just users — they are our community and eventually our partners.

2. Target Users

MVP Focus — Information & Knowledge Experts

The MVP serves one core user: someone who has knowledge, expertise or passion and wants to turn it into online income — but doesn't know how, or hasn't fully done it yet. Their product is information and content, not physical goods.

Complete Beginners

The Master Hobbyist Fly Fisherman — 30 years of expertise, never made a dollar from it. Until now.

The Expert Breathwork Healer — fabulously gifted, 5-year-old website, surviving on 1-on-1s. Ready to scale but doesn't know how.

Stalled Professionals

The Divorce Attorney — has a website, knows her stuff, but has never packaged her expertise into a program.

The Stuck Upgrader — has an online presence that's outdated and underperforming. Doesn't know how to use AI to refresh and relaunch.

Phase 3 — Global Artisan Track

The Moroccan Craftswoman — hand-makes the most beautiful scarves. No English. No online presence. She uploads a few photos, speaks in her language, and AbundanceAI builds her a live, optimized English Etsy store. Requires separate tech stack (image AI, multilingual, Etsy API).

Architecture must support this track from day one — do not build MVP in a way that requires rebuilding for Phase 3.

3. XPrize Revenue Strategy

The \$25 Painted Door Strategy

XPrize revenue comes from AbundanceAI's own sign-ups — not users' client revenue (which comes later). Pricing is designed to be a complete no-brainer:

- **Entry price: \$25** — so cheap it removes all hesitation
- **90-day money-back guarantee** — zero perceived risk
- **Distribution ready:** 250K+ email reach into target audience from day one
- **Goal:** high quantity of sales speaks volume to the XPrize judges

XPrize evidence package: Volume of \$25 sign-ups (revenue) + engaged users in the product (usage) + early transformation testimonials (impact). Users' own client revenue is a bonus if it happens within the XPrize window.

Phase 2 Pricing — Website Add-On (optional)

- **\$49 one-time setup** — AI-generated landing page with email capture, for users who wants a new website coordinated with their online program
- **\$19/month hosting** — Affordable and generates recurring revenue stream

4. UX & Marketing Vision

This is not a tech product. It is a human empowerment movement. The look, feel and entry experience must be beautiful, warm and emotionally resonant — nothing cold or corporate.

The Front Door Experience

- **Video-first landing page** — Ruby, Laquelle (new mom energy!), and real people from each target audience speaking directly to the visitor
- **Human-to-human outreach** — people sharing possibilities, not features
- **Early testimonials** from people visitors can see themselves in
- **Beautiful, warm design** — nothing that looks like a SaaS dashboard
- **Great copy** that speaks to the heart first: **"It's your time to share your gifts with the world"**

Core Marketing Message

Even if you don't know how to market yourself...

Even if you don't have a website, or yours is years out of date...

Even if you've never turned your expertise into a program...

We walk you through all of it. You just show up.

5. Product — Pillar 1: AI Done-For-You Toolkit

Step 1 — Choose Your Path

Type A: Live Group Coaching

- * 3–6 live sessions
- * 60–90 min each
- * 30–45 min teaching + Q&A.
- * Works for 2 or 200 people.
- * Real-time feedback.
- * Highest income potential
- * RECOMMENDED default path.

Type B: Self-Paced Course

- * Pre-recorded, self-paced modules
- * Good on-ramp for those camera-shy
- * Sessions can be AI generated
- * Udemy style

AI asks early: "Are you ready to show up live, or would you prefer to start with recorded content?" Routes them accordingly.

Step 2 — Content Structuring (First WOW Moment)

- User uploads existing content OR speaks/records their expertise
- AI structures it into a beautiful program — 3–6 modules with titles, learning outcomes, session flow
- This is the moment they say: "It's amazing to see all that in my head forever is a real program now!"

Step 3 — Marketing Pathway

- **Social media templates** — AI writes all posts, captions and hashtag; default marketing path for most users
- **Email outreach templates** for those with existing lists
- **Alternative paths** for those who absolutely don't want to be on social media
- It's all done for them – they don't need to write anything, except to edit to their own perfection.

Step 4 — Payment Setup

- **Guided Stripe setup walkthrough** — video showing exactly how to create a Stripe account
- **Checklist of what they need:** bank account, ID, email — so easy!
- **Timing:** introduced at week 3–4 of their journey, not day one — they're not selling yet
- **AbundanceAI does not process their payments** — Stripe handles everything directly

Step 5 — Where Their Coaching Product Lives

MVP Approach: Hybrid Hosting

- **Live sessions (Type A):** Google Meet — free, universal, no download friction
- **Program content & modules:** hosted inside AbundanceAI itself — clean, AI-generated, branded
- **Need new website?** AI generates a beautiful landing page inside AbundanceAI — their program page, payment link, and sign-up form, live in minutes.
(Phase 2 paid add-on)

What They Have When They Complete AbundanceAI Onboarding

- A structured 3–6 module online program, ready to deliver
- Social media posts ready to publish
- A Google Meet link for live sessions (Type A)
- Stripe account set up to receive payment
- A peer support circle of 3–5 matched people
- Mindset check-ins and a community behind them

6. Product — Pillar 2: Mindset Coaching

The first tech product that treats users as whole human beings and proactively addresses their fears. AI doesn't wait for them to quit — it gets ahead of the walls before they hit them.

Technical Implementation

- **Powered by Gemini API** — lives inside AbundanceAI, no separate platform needed
- **Structured prompts and short focused interactions** — keeps API costs low; not open-ended chat
- **Session limits built in from day one** — e.g. 3 mindset check-ins per week included; controls cost at scale
- **Cached common responses** — frequently triggered fear responses reused rather than regenerated

How It's Delivered

- **Proactive check-in messages** triggered at predictable sticking points in the journey
- **Short video/audio encouragement** from leadership team at key moments
- **AI-generated reflections** based on exactly where they are in their journey
- **Always available, always patient, never judging** — delivered by AI at every step

The Universal Walls We Anticipate

Customized by user category (healer vs. hobbyist vs. professional) and eventually by experience level and fear pattern:

- "Who am I to teach anyone anything?"
- "What if nobody shows up?"
- "I'm clueless about technology"
- "I hate sales and marketing"
- "What if they don't like my stuff?"
- "I'm too old / too young / not smart enough"

This fear template library grows over time and becomes a major competitive moat — no one can replicate it because it's built on our own user data.

7. Product — Pillar 3: Community Support Circles

Three Community Elements

- **Weekly Expert Talks** — live or recorded sessions addressing both fears and practical skills; gives users a reason to keep showing up
- **AI-Matched Peer Support Circles** — groups of 3–5 matched by category, experience level, and eventually shared fear patterns and complementary client potential
- **Customer-to-Customer Discovery** — members find each other as clients; a healer becomes the go-to for other members; creates an internal economy and powerful retention

Community Platform — Three Stage Approach

Stage 1 — MVP WhatsApp Communities Free. Universal. Everyone already has it. One Community holds up to 50 subgroups — enough for first 250 users. Peer circles matched manually. Groups meet via Google Meet (free).	Stage 2 — Post XPrize Build Simple Custom Layer Basic member profiles, AI matching engine, private group spaces, global community feed, expert talk events. Purpose-built for AbundanceAI — not a generic platform.	Stage 3 — Scale Proprietary Matching Engine Match by geography, language, similar learning curve, fear patterns, complementary client potential, Member-to-member discovery marketplace. This algorithm becomes our most valuable technical asset. Competitive moat: uncopiable
--	---	---

CRITICAL ARCHITECTURAL NOTE: Build the matching logic from day one so it ports cleanly from WhatsApp manual matching into the custom community layer. Do not build MVP in a way that requires rebuilding the matching engine later.

8. Full Scope — MVP vs Roadmap

The MVP is a Painted Door — enough that works to genuinely delight users and take real orders, while the full product continues being built behind the scenes.

Feature	MVP	Phase 2	Phase 3
Beautiful landing page — video-first, warm, human	✓	—	—
\$25 sign-up with Stripe payment processing	✓	—	—
90-day money-back guarantee mechanism	✓	—	—

AI onboarding — choose Type A or B path	✓	—	—
Content upload / voice input to AI	✓	—	—
AI program structuring (3–6 modules)	✓	—	—
Social media templates generated by AI	✓	—	—
Guided Stripe setup walkthrough	✓	—	—
Google Meet link setup for live sessions (Type A)	✓	—	—
Mindset coaching — core fear library by category	✓	—	—
Proactive mindset check-ins delivered by AI	✓	—	—
Weekly expert talk — first session	✓	—	—
Manual peer circle matching (WhatsApp Communities)	✓	—	—
Peer meetings via Google Meet	✓	—	—
Early user testimonials collected	✓	—	—
AI-generated landing page (\$49 add-on)	—	✓	—
\$19/month hosted page with email capture	—	✓	—
Custom community layer with AI matching engine	—	✓	—
Full marketing automation suite	—	✓	—
Expanded mindset template library	—	✓	—
Customer-to-customer discovery marketplace	—	✓	—
Proprietary matching engine (fear patterns, client potential)	—	—	✓
Global Artisan / Etsy track	—	—	✓
Multilingual support	—	—	✓
Shared abundance / co-ownership model	—	—	✓

9. Platform Infrastructure

Technology Stack

- **Gemini API** — required by XPrize; core AI brain for content structuring, marketing, mindset coaching, onboarding
- **Google Cloud** — required by XPrize; hosting, storage, database; free credits available for participants
- **Stripe** — payment processing for \$25 sign-ups (2.9% + 30¢ per transaction)
- **Zoom** — users use their own accounts for live group coaching sessions
- **WhatsApp Communities** — free; peer circle groups for MVP (up to 50 subgroups per Community)

- **Google Meet** — free; peer circles meet here
- **Video hosting** — Vimeo or similar for landing page videos
- **Email platform** — for 5K outreach list

Monthly Budget Estimate — MVP Window

Item	Low	High
Google Cloud (hosting, DB, storage)	\$50	\$150
Gemini API (AI interactions)	\$100	\$300
Stripe fees (500 sign-ups x \$25)	\$45	\$45
Video hosting (Vimeo)	\$20	\$20
Email platform	\$100	\$300
WhatsApp Communities	Free	Free
Google Meet / Zoom	Free	Free
Total monthly estimate	~\$315	~\$815

Revenue vs. Cost at 500 Sign-Ups
 300 users x \$25 = \$7,500 revenue over 30-day window
 Platform costs over 90 days = ~\$1,000–2,500

10. Success Metrics — XPrize Window

Revenue Evidence • Number of \$25 sign-ups • Total revenue generated • Refund rate (expect very low)	Impact Evidence • Users who completed program structure • Peer circles formed and active • Transformation testimonials collected
